PROFILE

Hi I am Lucas, a web developer with knowledge of several programming languages, including Java, JavaScript, Python, and C#, as well as frameworks such as Laravel, Angular, FastAPI or Next.JS. I have a deep interest in technology and like to keep up to date with the latest developments. With a solid foundation in both front-end and back-end development, I am currently very interested in the application of AI wrappers to find modern and competent solutions for repetitive tasks.

WORK EXPERIENCE

01/2025 - 06/2025

Standard Profil Group

Software Developer

During this second internship period, we continued working on the development of internal web applications designed to measure processes and implement new communication systems for the production plant. We used technologies such as ASP.NET, SQL Server, and Ignition.

06/2024 - 07/2024

Dundee Backpackers Hostel

Housekeeping Assistant

Worked as a housekeeping assistant in a busy hostel in Scotland, ensuring cleanliness and organization in guest areas. This experience allowed me to significantly improve my English skills through daily interactions with international travelers and colleagues.

03/2024 - 05/2024

Standard Profil Group

Software Developer

During my internship, I worked on developing internal web applications aimed at optimizing internal logistics, measuring processes, and updating obsolete programs, thereby contributing to improved operational efficiency. We used technologies such as ASP.NET, SQL Server, and Ignition.
